Subject: Regulation AA

Jul 25, 2008

Federal Reserve Board Email comments

Dear Email comments,

When I was a teenager the things that the banks, savings and loans, and credit card companies now do was illegal. There was a usuary law that

prevnent them from charging obscene amounts of interest. I believe that the banking industry is in bed with orginized crime. You know the vigorish schemes on loans from loan sharks.....And their laundering of illegal gotten gains from drug dealers etc. is legendary...

.

Sincerely,

Mr. David Sabol
