Federal Reserve Board Email comments

Dear Email comments,

It's time to rein in the credit card companies. For too long they have been able to screw the average American consumer to no end, with no penalties or rules applied to their actions. Please do all you can to stop them from hiking interest rates due to a day-late payment, make them give consumers plenty of time to pay the bill and not have it be late, and just play more fairly in general. Credit card companies are

already making bank off of consumer debt. Please help level the playing field.

.

Sincerely,

Miss Erin Moore
