Subject: Regulation AA

Jul 25, 2008

Dear Email comments,

Please consider supporting credit card reform for the credit card companies. I bought diabetes supplies for my son on a credit card, and then they raised my interest rate for no apparent reason. I am paying \$350 a month as a minimum payment, and only \$100 of that goes toward the principal. I hope that I am able to pay the card off in my lifetime. I also have student loans to pay, so this is a challenge. Please provide more stringent regulation of interest charged on credit cards.

Sincerely,

Ms. Tiana Mylene
