Federal Reserve Board Email comments

Dear Email comments,

Truely controlling the credit card companies from their unleashed rein of terror will really make a difference in EVERY American's lives. The credit card companies are also responsible for HIGH gas prices. And the effects of thier gouging in many ways is reflected in daily troubles for ALL Americans. I am asking that you do ALL that you can do to ignore the credit card lobbies & to truely do something for the GOOD of Americans.

Sincerely,

Ms. Garland DeCourcy
