Subject: Regulation AA

Jul 25, 2008

Federal Reserve Board Email comments

Dear Email comments,

Would certainly appreciate some action against credit card companies, or businesses that issue credit cards, for excessive fee increases without justification. Eliminate the 'come on' low interest starting rates and the hikes of 10% or more for no reason - at the whim of the credit card companies.

Congressperson, you are renown as a useless do nothing, as reflected in

your less than 20% approval rating by the American public. Please take some time away from your junkets and fund raisers to do something for the people who, unfortunately, elected you to spend our taxes on foolishness. Your accomplishments reflect your low reflection by the American people.

AND DON'T BLAME THE PRESIDENT!! GET A GRIP ON YOUR OWN RESPONSIBILITIES FOR A CHANGE!!!!!!!!!!!!

.

Sincerely,

Mr. Laurence Capellas
