Subject: Regulation AA

Jul 25, 2008

Federal Reserve Board Email comments

Dear Email comments,

The credit card companies have too many laws and regulations for their own advantages, not the hard working people in America. Their high interest rates and late fees are outrageous! They also send out too

many credit card offers to children, the elderly, your family pets, and even those who have deceased. Please put more restrictions on these companies and put a stop to their abusive behaviors!

Sincerely,

Mrs. Janice Davis
