Federal Reserve Board Email comments

Dear Email comments,

Why all delays...as if the people don't know whats is happening.
This issue impacts many people...what the credit card companies are
doing is immoral, abusive nor ethical.

People are financially straining in this economy and anymore stress I
do believe it can be very bad for our country that I love.

Please support this bill. By doing nothing, is as bad as supporting the
credit card company.

Sincerely,

Mrs. Iris Jaime
