Dear Email comments,

I Believe what Congress has allowed the credit card companies in our great Country to do to it's hard working and trusting people is a national and world wide disgrace!

Congress has allowed credit card companies to drain the public of their resources in the same illegal way loan sharks tramp down on the misfortunate.

This is truly a shame on this great Nation and I believe swift action to change this deplorable conduct must be implemented immediately.
With all due respect,

Sincerely,

Mrs. Donna Wolf
