**Comments:**

Sir-3 years ago got a cash advance on my Chase card for \$300. It is still \$269 with a \$5 dollar interest fee per month. I have tried twice to pay by separate check to end this \$60 a year interest fee. Chase stubbornly uses the second check to pay off more on the credit card. So far I figure I have paid \$180 in interest to get \$300 cash on y credit card. And the total is only \$269 now --they are going to carry and charge this forever. HELP(R-314) Reg.AA
