Federal Reserve Board Email comments

Dear Email comments,

I consolidated and paid off a large credit card account with a bank check. I knew there

would be an additional amount I'd have to pay from my checking account, so I sent that as well. I also, asked them to close my account.

Then, I received another bill in the mail for interest compounded daily \$4.48. The card paid off was over \$3000.00.

They wouldn't waive this for anything and I had to send a check for this amount. I now have a .01 cent credit. I think they should have to waive it, if it's under a certain amount. I also sent the payment before the due date on the credit card bill.

.

Sincerely,

Ms. Barbara Buri
