We simply can not believe you are proceeding in destroying American economy!
Your approach has a long tradition if a faith that government, rules and regulations have a magic power to make good things happen. It started with USSR ruining half of the world. Regardless of the regulations there are always be crooked brokers, realtors, cops, doctors and federal reserve board members. Don't you see how your recent "reforms" screwd the market? What you do benefits giga-corporations, and kill a free market in the USA.
