It is outrageous and insulting that mortgage originators would be subject to this and not other industry members, REALTORS!!! As if we don't do enough work on a borrowers file that we don't deserve to make money!!! Why don't the legislators who thought this up take a cap on their paychecks? Because they think they work for it? SO DO WE !!!! I spend hours trying to get business, marketing, educating, and gaining customers trust and then I can't make enough to breakeven!!!
