Why would we look at taking the choice away from the American Consumer? It is going to cost more in the long run to the consumer. Through all of the regulations handed down over the past several years the ones that were doing wrong have been run out of the business, outside of Barney Frank and his cronies in Congress! Ironic, isn't it? We want to put more people out of work with this bill when the Unemployment rate is the highest it has been in decades and yet we can put the face on it as if we are helping the American people??
