Comments:

The big banks have made an obscene amount of money off of the very people that they are supposed to be serving. They need to reinvest some of their profits into the communities they serve. Those that do not should not receive an "outstanding" rating when they do not reinvest in the communities that they serve. The loophole needs to be closed. The big banks have plundered our economy enough. Their institutionalized racist practices need to be addressed & penalized. ALL of the communities that they serve need to be graded, obviously not just the ones that they choose.
