This is absolutely outrageous. This proposal only goes to remove any shred of doubt (if any was left) that the Federal Reserve's sole purpose is to commit mass theft of the current and future labor of the people of the United States for the benefit of the ultra-rich. This is treasonous. Your institution has either gone rogue or was never intended to benefit the people in the first place. If anything, the Fed should be promoting true free market principles and allowing these zombie banks to die the natural deaths they so rightly deserve after they gambled with what turned out to be our money. Instead, you have been pivotal in destroying millions of lives. This proposal just continues this blatant and despicable fraud.
