I read with dismay the proposal that regulation z-Truth in lending act (r-1390) is trying to do. Just how far do you think you can push the American People into complete robots? Do you think anyone will buy a home knowing that there is no protection for unlawful and criminal acts that have been or may be done against them? I vote NO for this unbelievable one sided proposal of removal of consumer rights. This is starting to look like treson. Please remove your proposal now.
