We have More than enough issues to deal with due to the decisions made in Washington. If there is a possible out for the people who are funding your paycheck leave it be, Not allowing the people who have lost jobs and more to try to get out of, or change their mortgage like mine will only hurt this already fragile economy in the long run. DO NOT change the "Notice of Rescission" clause it may be our only hope for help. Many like myself are upside down, but have a little money in the bank taking me out of the window for help. Im current with my mortgage but if my wife loses her unemployment we my be forced to take drastic measures including walking away from our home and mortgage, if there is nothing we can do to lower our payment. Please do something to help the people who are paying your wages.
