Subject: Docket NO. R-1390

Sirs;

The current Reg Z disclosures have been in effect for thirty years and have served our system well. As you know the the U.S. voters are up in arms over the changes that Washington has been making and I along with millions of other voters will do everything we can to try to curb so many changes that effect all of us.

When will Washington realize that the problems we face today were caused by a few and yet the many are paying the price.

Docket No R- 1390 is bad for our country and the many who are not insured enough already.

Paul J. Porter
