Comments:

You idiots need to reverse this over-regulation, job killing policies, not to mention the absolute destruction of home equity. Applied at three different mortgage companies, for a loan amount of 90K, excellent credit and income...each have told me to go elsewhere, due to the lower loan amount, and the new loan officer compensation rules. Just get out the way, and stop stifling the economy and home values with your over regulations. You should all be fired, hopefully that comes in 2012
