Comments:

Leave the homeowners alone! It is PRIVATE property and they should be the ones to decide how to best sell thier home. If you outlaw seller financed mortgages,the already fragile housing market will collapse completely. Many people can't qualify for bank loans so seller financing is thier only hope of buying a house. In additon, you will be putting hundreds of people out of business, including note/mortgage brokers, title companies and note buyers. Fewer jobs=fewer tax dollars. You need to reign in the banks who created this mortgage mess in the first place. It is time for the federal government to be held acountable to the people.
