Name: Judy A Hindrichs

Comments:

What happened to our government by the people, for the people! We have a responsibility to help each other honestly and with integrity. Our politicians care more about bi-partisan status than direct issues like reading through that which helps or harms us in a direct way. Homeowners DO have a right to sell their own home without the bureaucratic nonsense you have created. It's those savvy and creative homeowners who help our economy and provide alternatives for deserving people when our institutions provide fat payouts to executives who are too greedy to do the right thing. I challenge all politicians to remember that all US citizens, including themselves, are affected by these decisions. I thank you in advance for reading this comment and doing the job that we, the people, sent you to do. It's not brain surgery guys-just common sense decisions.
