Comments:

This is an outrage! How dare Obama undermine the principals that this country was founded upon. Diminishing free enterprise with this proposal is horrible. Seller financing is a viable way of doing business in The United States of America. Obama is slowly trying to turn our country into a socialistic, rather communistic society. This encourages the banks to own more property instead of the hard working man- who follows the rules while working hard, like our ancestors did. Seller financing needs to stay in tact! That is the bottom line!
