Comments:

This proposal is more government interference in the rights of the people, of which this country's principles were founded upon. An individual has the right to do with there home as they see fit as long as it not illegal. Government has no right in limiting an individuals desire of how and what to sell their home. This country is becoming more socialist and communistic that are fore fathers are turning over in there graves. Obama is a socialist and these tactics need to be stopped or America will not be the land of the free but Cuba and Korea sister countries.
