Document ID: R-1417  
Document Version: 1  
Release Date: 04/19/2011  
Name: Jennifer Patton

Comments:

This legislations REgulation Z; Truth in Lending (R-1417) is clearly a move to take away our rights as United States Citizens....how much more will be taken away? Everyday legislation is produced that continue's to take our Constitutional rights away. This has not been voted on and the Federal Reserve or the President of this United States does not have the right to put us out of businessss, much less dictate to Citizens that they cannot sell their property any way they like. We pay taxes to assure the our property is owned by us and then you turn around and try to mandate that by controlling how we sell our own property????? This is not only wanted or desired by me or anyone that I know but it should be ILLEGAL for any Government entity or the Federal Reserve to take that right away from us.... This current President is doing everything that he can to turn this Country into a Socialist country and this is just another thing. What is wrong with everybody??? Can you not see what is happening???? Pray to God for Our Country! With the current administration and The Federal Reserve (not a part of our Government System)..the citizens of this United States will never have the rights that we have always known again.
