We are in a plastic surgery practice that does not prescribe many prescriptions. The amount weekly prescribed are from 0-6. This includes narcotics for post-operative pain that cannot be e-prescribed. We also do not have a high volume of Medicare and Medicaid patients. There is no way we will ever meet the quota for the amount of e-scripts to be sent in order to qualify for any incentive, let alone we will be sanctioned because we cannot qualify. This is definitely a problem that needs to be addressed.
