Federal Reserve

Dear Federal Reserve:

Hello,

My name is Richard, I am a store manager for Sears Appliance and Hardware in Oneida which is located in upstate NY. We are a small business surrounded by two of the largest consumer retailers out there (walmart and lowes). I employ 25 hard working individuals whom I would proudly stand behind. It is very hard to make a decent living these days and I am proud to say that I am helping these people and my community. With our economy being the way that it is small businesses such as mine need help not more costs, especially ones that benefit larger corporations, and banks. I ask you please to help myself my employees and all small businesses in this great country, and help us fight unfair credit card fees. Thank you

Sincerely,

Richard
