Comments:

Just so that borrowers, bankers, lenders etc don't feel picked on . Will you introduce the same type of regulations to all businesses. I want the 23 year old kid buying a car for 30k to qualify. I want you to qualify every transaction. This would be a great way to create more governmnet jobs and reduce the private sector overhang you all seem to be so fearful of....I can't believe I am spendinig time typing this to a group of people who vote on there own pay raise! stop trying to protect people who can't add and subtract. Let lenders lend, let borrowers borrow. Let the chips fall as they may.
