Comments:

I am a single woman soon to be 67 years-old. I have always been proud of my country and the good that it was willing to do around the world, even with several big flaws.

HOWEVER, now being on a fixed income and watching my country not regular those who have been bailed out of the financial crisis... I AM APPALLED AND ANGRY...

I have watched the documentary INSIDE JOB and the HBO mini-series on TOO BIG TOO FAIL and now have a greater sense of those in financial powers greed, and deep lack of care for others... SO SAD. Please, you have the power and job description to make this right again.

I sincerely pray that you do what is yours to do,

Marijane Mercer
