

Missouri Bankers Association  
Regulation Z, Docket No R-1417

On September 22, 2011, members of the Missouri Bankers Association met with Governor Sarah Bloom Raskin to discuss proposed amendments to Regulation Z. They expressed concern about potential liability for lenders and requested that the final rule include exemptions for certain types of loans or institutions, as well as safe harbors. Association members said credit availability for consumers would likely be reduced as a result of this proposal and other regulatory actions.
