

Ohio Bankers League  
Regulation VV, Proprietary Trading and Relationships with Covered Funds  
(Docket No. R-1432)

On February 29, 2012, members of the Ohio Bankers League met with Governor Sarah Bloom Raskin to discuss the interagency proposal on proprietary trading (the so-called Volcker Rule). Some members of the Ohio Bankers League expressed uncertainty about the applicability of the proposal to smaller institutions that might engage in limited hedging activities.
