

From: Chan Crooker
Proposal: 1442 (RIN 7100-AD 87) Regs H, Q, & Y Regulatory Capital Rules
Subject: Regs H & Y Regulatory Capital Proposals

Comments:

Please take immediate action to extend the deadline period for comment on Basel III. As a lifelong community banker, I have every reason to believe this proposed regulation will have a dire impact on community banking and have a direct negative impact on our business and consumer customers as well. It will absolutely hinder our ability to extend credit, and spur economic growth. It is imperative that our industry have more time to voice our concern in regards to this regulatory proposal.

Thank you,

Chan Crooker

Vice President/Lending
