

From: Theodora Crawford
Proposal: 1432 (RIN 7100 AD 82) Reg. V V - Proprietary Trading and Certain Interests In, and Relationships
Subject: Volcker Rule -- Prohibitions and Restrictions on Proprietary Trading and Certain Interests In, and R

Comments:

To Whom It May Concern,

Let's get an honest solution for our financial disasters! The Volker Rule makes sense ... but no loopholes, concealed paragraphs or other manipulation to reward the already profiteering power elite among us. ring black Glass Siegel while you're at it and establish a financial transaction tax as they are stating to do in Europe.

What kind of future do you want, if you have children? and if not, if you give a damn about our country's survival.

I trust you will do the right thing and see those who destroyed so much of our lives pay the price of fraud and deception!

Just another angry white woman!
