Proposal: 1432 (RIN 7100 AD 82) Reg. V V - Proprietary Trading and Certain Interests In, and Relationships
Subject: Volcker Rule -- Prohibitions and Restrictions on Proprietary Trading and Certain Interests In, and R

Comments:

I want to urge strong support of the Volcker rule so that the big banks don't need another bailout. There is no reason any federally insured bank or bank holding company should be trading on their own account.
