

From: JoAnn Durfee  
Proposal: 1432 (RIN 7100 AD 82) Reg. V V - Proprietary Trading and Certain Interests In, and Relationships  
Subject: Volcker Rule -- Prohibitions and Restrictions on Proprietary Trading and Certain Interests In, and R

---

Comments:

My family and I want a strong Volcker Rule.

Every citizen who has lived through the last ten years deserves a strong Volker Rule because we have all seen the results of not having strong regulations and penalties in place.

Our country must have it if it is to regain financial stability.

The Volker Rule is the best of capitalism and democracy in action--the "marketplace" meaning the citizens taking care of irresponsible companies, dangerous and unwanted products, and exacting penalties/losses/ and hopefully jail time to the criminals who cheat, commit fraud and plunder the national financial system.

My family and I were seriously affected by the economic collapse of 2008, and we don't want it to happen again.

We are depending on you to put teeth in this Rule and then use it.
