

From: Anthony Carroll
Proposal: 1432 (RIN 7100 AD 82) Reg. V V - Proprietary Trading and Certain Interests In, and Relationships
Subject: Volcker Rule -- Prohibitions and Restrictions on Proprietary Trading and Certain Interests In, and R

Comments:

Hi,

My name is Anthony Carroll, and I wanted to submit some comments with regard to JP Morgan Chase on behalf of myself, my wife, and our two young daughters.

Our oldest daughter is about to enter Kindergarten, and our financial future has never been shakier. I attribute a big part of the current financial instability to the fall of Glass-Steagall. You have the opportunity to implement a strong Volcker Rule, and it is in our collective national interest that you do so. Banks like JP Morgan Chase need to be restrained. Their sole profit motive IS NOT in our best interest as a country. Without oversight, these banks will continue to take ultimate risks with our personal finances. They could care less if they lose \$50,000; but that's my retirement, my house, my kids college fund.

Please take out the loopholes, and keep this Volcker rule strong. I depend on you to use your best judgement and do what is right. On behalf of myself and my family, thank you for your service and I sincerely hope you keep our national interest at heart.

Thank you,

Anthony Carroll
