Proposal: 1432 (RIN 7100 AD 82) Reg. V V - Proprietary Trading and Certain Interests In, and Relationships
Subject: Volcker Rule -- Prohibitions and Restrictions on Proprietary Trading and Certain Interests In, and R

Comments:

I would urge you to implement stronger rules to stop banks like JP Morgan from gambling with taxpayer money and threatening the economic stability of the United States.

I also urge you to eliminate the loopholes that allow companies to continue the speculative bets like JP Morgan has been involved in. A "hedge" should be a safe investment to offset risk; but they have made it an even riskier bet.

Thank You,
