Comments:

To big to fail is too big. The American middle class has suffered and you have done nothing to prevent gambling in the banking sector that can ruin our economy again.

PLEASE SEPARATE BANKING FROM SPECULATING So our economy can be stable.

Most of us out here are sick about lobbyists writing the regulations to their advantage and the fact that wall street has been aided and come back while our mortgage values have not.

Help us, not big business

Thanks,

Tj Aitken
