

From: Richard Winkler
Proposal: 1432 (RIN 7100 AD 82) Reg. V V - Proprietary Trading and Certain Interests In, and Relationships
Subject: Volcker Rule -- Prohibitions and Restrictions on Proprietary Trading and Certain Interests In, and R

Comments:

I have no problem with banks gambling with and losing their own money if they are 100% quarantined from the rest of us but when it affects the economy as a whole there needs to be adult supervision over GCC (Global Casino Capitalism.)

The losses revealed at JP Morgan Chase show our largest banks will continue to take the same kind of risks that led us to the financial crisis unless they are restrained by effective new rules. I urge you to implement a strong Volcker Rule to establish the kind of firewall that Congress mandated between market speculation and basic banking services. That's the same principle that informed the Glass-Steagall rules that served our economy well from the 1930s to the 1990s. We need to make the same principles work today.

I strongly urge the re-reinstatement of Glass-Steagall.

Please write a final rule that keeps the best elements of your proposed rule, but eliminates loopholes that would permit banks to evade the purpose of the law. A strong Volcker Rule should never permit the kind of massive speculative bets that JP Morgan took to be disguised as 'hedging'.
