Your comment: Dear Sir/Madam,

With regards to the proposed change to the Supplemental Schedule for Column A - Carrying value of whole loans; the definition states "report the carrying value of loans in portfolios that were not distinctly reported in the FR Y-9C schedules because of differences in the definition of the portfolio." Could you provide some clarity as to what this would constitute? What portfolios are not distinctly reported on the FRY-9C that would qualify for the categories provided on the Supplemental schedule for the FRY-14Q? Could you provide some examples? We also noted that the "Domestic" offices lines are shaded out in most classifications on the Supplemental Schedule. Not sure how this correlates to the FRY-9C with respect to the classifications broken out on Schedule HC-C. Would appreciate the clarification.

Regards,

Rupin Patel
