This is an abomination. This completely ignored one of the most fundamental rights of this country, that being the right of association. This only deepens the problem which Blacks, Hispanics (of which I am one), and women face in the financial sector as well as any other sector by treating them as second class citizens who have no ability to succeed on their own.

I am not a child and I will not be spoken to in such a way. I refuse to be subject to this regulation and treated as a child who needs help. I have my dignity and my self-respect.

This abomination MUST be DISCONTINUED ASAP.
