Proposal: 1479 (RIN 7100-AE10) Regulation: Physical Commodities-FHCs (ANPR)
Subject: Physical Commodities-FHCs

Comments:

Dear Sir / Madame:

Financial institutions should not be allowed to stockpile basic commodities like food, metals etc. This kind of speculation is dangerous to our economy and bad for consumers. These huge Wall Street banks are always pushing for new ways to gamble, and return us to the recklessness that led to the 2008 meltdown. It's obscene that these banks that led us to the biggest financial crisis since 1929 are still looking for new ways to gamble with OUR money ! Do the right thing and don't let them engage in these new scams....

I hope you consider my comment in making your final decision on this matter.
