Proposal: 1479 (RIN 7100-AE10) Regulation: Physical Commodities-FHCs (ANPR)

Subject: Physical Commodities-FHCs

Comments:

There should be "no banks too big to fail". You must force banks to break off as the large corporations were made to do decades ago, when we could trust our government. No bank should be allowed to hide products that we all need and manipulate prices. That is criminal and the criminals executives should be charged, arrested, and put in jail. Fines to corporations do not work. Pass laws that require list of executives of large corporations to designate their responsibilities. Then, we can arrest executives who have ordered criminal behaviour.
