Subject: Physical Commodities-FHCs

Comments:

I am deeply concerned about the speculation in commodities by banks and large financial institutions. There is already too much concentration of power in the financial sector and it is important that we heed the lessons of not only the past few years but the history of "boom and bust" that seems to occur with frequency in our economic sector. Greed knows no bounds and it is up to our public agencies to create safeguards that check exceptionally risky behavior with the potential to harm our society. The perpetrators always seem to be protected while the ordinary person faces the consequences of their actions.

Thank you for protecting the public from irresponsible speculation and hoarding.

Sincerely  
Anne Menzies
