Your comment: This is probably a waste of time... So you want to elicit views from the public on the risks and benefits of Financial Holding Companies (GS, WF, JPM... FED Reserve banks)... its obvious - by manipulating the PM markets, the FED Reserve Banks reap the benefits and their investors get screwed. Additional comments- do not allow the Fed Reserve Banks to PAPER TRADE PHYSICAL COMMODITIES. Stop that, and close down the bucket shop system - the blatant pump and dump is criminal...but that seems to be the norm - just fines right? wink/wink...
