Proposal: 1614 - Resolution Planning Guidance for Eight Large, Complex US Banking Organizations
Subject: OP-1614 - Resolution Planning Guidance for Eight Large, Complex US Banking Organizations

Comments:

NONCONFIDENTIAL // EXTERNAL

Honorable Federal Reserve Board

JP Morgan Chase, Wells Fargo, Bank of America, Navy Federal Credit Union and First Bank Holding Company all defrauded the United States of America and used the United States Courts to try cover this up. Because this was done in court all the information on what each bank did is on the internet, forever.

All these banks were both comfortable and confident doing this. What does that tell you? It tells me they can't be trusted.

This bothered me so much I told the FBI.

Everyday these banks continue to get a way with this, the more damage they cause to the economy. All funding that is supposed to flow into the economy is going into their pockets.

The United States of America just got out of one of the worse financial disasters. Which some of the above banks were part of. I did my best to help keep history from repeating itself. I can only do so much.
