FedReserve,

Infor would like to request to be included in your search for a solution team should this initiative head that direction. We have no specific comments to this docket - other than to say that we are actively working a similar initiative for Pay.UK.

Infor and our partners, Deloitte, Planixs and Amazon Web Services bring together a key consortium of products, technologies and subject matter expertise that we believe could help the US as we are hoping to do for the UK support the interbank settlement of faster payments.

Also, in full disclosure - our CEO, Charles Phillips, is on the board of the NY Fed <https://www.newyorkfed.org/newsevents/news/aboutthefed/2017/oa171103a>
