Address line 1: 150 Ballard Circle

Address line 2:

City: Paducah

State: Kentucky

Zip: 42001

Country: UNITED STATES

Postal (if outside the U.S.):

Your comment: Marquette Transportation Company is one of the nation's largest providers of marine transportation services, operating on the U.S. inland waterways. Please do not pass this legislation. We have a hard enough time dealing with soybean tariffs, deteriorating lock and dam infrastructure, wage inflation and other burdensome legislation & regulation. This will simply increase our cost to fix our fuel prices (when we fix rates to move our customers' barges) and our interest rates (because keeping a well maintained fleet of towboats is expensive).
