It's long past time for the public to be able to work directly with Federal Reserve Banks.

Commercial banks will steal if they think they can do so & no one will hold them accountable.

I know this first hand. All of the funding I wanted to put into the US economy via paying people for their goods & services never got there.

The Consumer Financial Protection Bureau chose not to stop JP Morgan Chase, Wells Fargo, First Bank Holding Company, Bank of America & Navy Federal Credit Union. Job creation nationwide continues to be prevented because of that.

Elected officials chose not to hold the Consumer Financial Protection Bureau for what it enabled. I was expected to be ok with that.

I'm not & never will be.

Those banks went on to lie to the US Courts.

Big mistake on their part. I understood becoming a United States Code Private Banker the way I did, would make all the negotiable instruments I would ever create, property of the US economy. The US economy is owned by the United States of America.

The USA government completely owns all of those banks right now. Those banks knew they were stealing & making the US Courts an accomplice to the theft. They expected what I had to say & evidence collected wouldn't be taken seriously.

I understand corporation's are people's personal property. The owner gets to decide what they do with their own personal property.

I simply chose to give my personal property to the US economy in an unorthodox manner.

My offer was accepted without objection.

I also understand all the changes the internet brought with it. I did everything in such a way the internet recorded it all. I hid nothing.

I have to follow USA's rules & laws anyway.

I saw no reason not to help my country in this manner. US Constitution First Amendment says I have the right to express myself anyway I see fit.

That is exactly what I did.

The state of Washington agreed with me that corporation's valuation is unlimited.

The state of Arizona agreed with Washington state & how I planned to hand the valuation over. My offer was accepted without objection.

The 2016 White House represented the USA government. The IRS represented taxpayers.

The Federal Reserve Board is in charge of USA's currency. They all accepted the valuation of my property & how I would hand it over.

I spend a lot of time learning everything from the Library of Congress.
