Your comment: The CRA implementations for changes, appear to only further enhance more rapid Gentrification and Isolation with assistance for all others relevant of the Black African American areas. CRA had led many countless American Citizens away from, based on Access to genuine CHANGE. Our areas are already fragile enough the last thing we need is more Massive Gentrification in urban Black African Area, that have up to, this current present time : of whole areas concentrated where ever we are; the DECISION Makers at state and local levels of government: who seem to be jumping for JOY: that they can get ECONOMIC DEVELOPMENT inside those areas, while LONG TERM African American homeowners are just tossed in the GENTRICATION and DISMANTLING and replacing us, with whom EvEr comes along- CRA would do, weLL to incorporate the THEMES of "STRUCTURAL VIOLENCE" and "ECONOMIC VIOLENCE, whose second to none: because "ROOT SHOCK" is right now being played all over our AGREEMENT to host a PUBLIC FORUM: about SOLOUTIONS- with Speaker LOUDER Than Quite Specifically addressing the REMOVAL PLANS of the UNITED STATES to slow DOWN GENTRIFICATION through more compliance with CRA and not moRe sophisticated PLANNING and RESEARCH about Gentrification: and YET, approach the U.S. Energy Department, about ever ESCALATING impacts on regular cost of Living- in areas that are NOW more impacted by over-exaggerated of whole areas just being in our own AREAS- being reversed out into what they call Economic Developed- is our INTERPRETION of being erased from our own CULTURAL HERITAGE FAREWELL to my AREA, cause the decoded position of just being removed to completely REPLACED
