Your comment: For Nations to exile fraudsters we need tools to analyze strong structure that displaces fraud far and abroad. The SEC CAN easily detect it and issue warrants of attempted fraud that not even web3 could ever obscure. This IS The Federal Reserve, so make it possible to track state ids licenses license plates registration proof of insurance to be intermittently viewable on surveillance cameras that hold evidence of where every vehicle has been. To opt out of web3 to be anonymous; they will need to consort On The Federal Level that it must meet code of along with modems must have DNA Breath Scan Funnel Analyzer. Fraudster would end up going out of business fast. Has to be their place of business. You should have my email by now. Wiretap it.
